

## VICTORIOUS KIDSS EDUCARES

### Brief History and Philosophy

**Victorious Kidss Educares** is an IB World School. This accomplishment has been achieved, at this point of time, by a very few schools in the globe. There are many IB Schools, but there are a very few **IB World School**. You would be pleased to know that, you are inquiring from a school, which has been evaluated by IB Asia Pacific Zonal Headquarter, since 2012, as a 'Model IB World School in Asia'. You would also be happy to know that one of our alumni has, in this last academic year 2017 scored a perfect 45 out of 45, in IB DP world examination and has become a 'World topper'.

We work with the ancient wisdom:

***'Education is the manifestation of the perfection from within ~ (Swami Vivekananda) ~***

***"All children are born genius and we, as teachers and parents, spend the first few years in degeniusing them (Buckminster Fuller ~ USA).***

At Victorious Kidss Educares, all we do is 'create an environment that our children begin to explore the secret power from within themselves, so that they understand that, 'they can achieve and do anything, if only they choose to'! Our motto is, "Learning to love to learn". We are a school, where our philosophy of teaching & learning pedagogy is based and guided by the ancient doctrines of Vedanta, coupled with the latest of Western Science of International Baccalaureate (IB).

***We believe that 'discovering the secret power from within, is schooling, is parenting'.***

Our school believes in building an attitude of 'Learning to Love to Learn' where every child is exposed to learning through exploration, with the latest of Western Methodology of 'Inquiry based Teaching and Learning pedagogy' of the International Baccalaureate (IB). This is coupled with the ancient wisdom of 'The Masters of The World' along with spiritual, rich heritage of **Vedanta of India**. We stand today as a complete IB World School.

*Our research shows that with the technological revolution in the world, the holistic education for the child needs an awareness, a consciousness in the hearts of the parents and teachers ~ '**that our children are no longer the people, as we were in the school. The 'Teaching and Learning' is, therefore, no longer the same for the children of today, as it was in the days of our own schooling!**'*

In our school we believe in supporting every child and that 'Every Child Matters (ECM)'. We have a strong team of specialists, mentors, worldwide career counsellors, mentors, special educational guides, placement planners; who are guiding the children, parents and the teachers ~ 'towards success for all'. The President, the Principal and several other members of the school are specialists, worldwide educators, of Vedanta, IB, and are specialised on 'Early Child Brain Development'.

The concept is to guide the children's curiosity and allow them to blossom to their fullest potential; keeping in mind the technological revolution and the digitization of the fast-changing world. Take the children across the entire spectrum of teaching and learning with concept based inquiry and exploration, than that of learning only by rote the content based curriculum.

We all love to have gifted children. "**Being gifted,**" as per the definition given by a famous Neuro Surgeon~ "**is primarily based on the environment and by the current definition, the level of intelligence, can easily be achieved by all children**". ~ (Dr. Neil Harvey ~ The Institute for the achievement for of Human Potential ~PA, USA).
