

Who We Are?

At Victorious Kidss Educare, we couple the philosophy of the latest of Western Education Masters, with India's ancient rich heritage of teaching and learning, on the doctrines left behind for 'Education for Humanity. By this balancing of power with the best of East and West ~ our school has been evaluated by IB, since 2012, with the honour of being, a **Model IB World school**, in Asia.

International Baccalaureate (IB) is the most sought-after educational concept and, for its' inherent strength within, is favoured worldwide. It's specialized pedagogy of teaching and learning through concepts and inquiry is bringing in a revolution and

exciting children to discover the secret power from within their own self! This process of schooling is available widely ~ over 5000 + schools across 150 countries and you would come to know more about these elite processes of teaching and learning, as well as the official status of other IB world schools, once you arrive and interact with us.

Our Core Team: The Coordinators, the Principal and the President are 'certified world trainers, teachers' trainers, examination moderators'. Our President has been, in addition, an FAA (USA) qualified trainer and instructor. The Professional Development (PD) program for teachers, are closely monitored round the year and are continuously standardized by The IB Global Organization (IBO).

The entire teaching and learning processes rotate around discovering the secret power, hidden within every child. This is done through freedom of expression, inquiry cycle, developing an attitude to learning, through understanding the 'Concepts' rather than by rote of the 'Content' ~ as was the process, in earlier days. IB students often perform far better, because they learn to discover the hidden potentials from within of awareness, of understanding, developing an attitude of inquiry, learning to ask questions better. The **IB World School** students foster strong academic, social and emotional characteristics. They are, also, seen to and likely to perform well academically and stay well balanced – often better than most students, placed worldwide, on other Programme.
