## VEDIC MATHS

Ever tried solving  $7854 \times 9998$ ? It's a challenge that would make children run in the opposite direction, the fear of math finding a place in the young minds. In such a situation you can empower your children with **Vedic mathematics**.

**Victorious Kidss Educares offers online classes in Vedic mathematics** – an ancient Indian form of mathematics for quick and accurate arithmetic calculations. We teach students how to solve complex arithmetic problems mentally and most importantly learn to enjoy the subject. The course will help students build stronger reasoning and critical thinking skills.

Age Group: 9 to 10 years **Fees: 3000**

Age Group: 11 to 14 years **Fees: 4000**

Age Group: Parents **Fees: 4000**
